

# Ethereum Attestation Snapshot

Alice has a new idea for the community

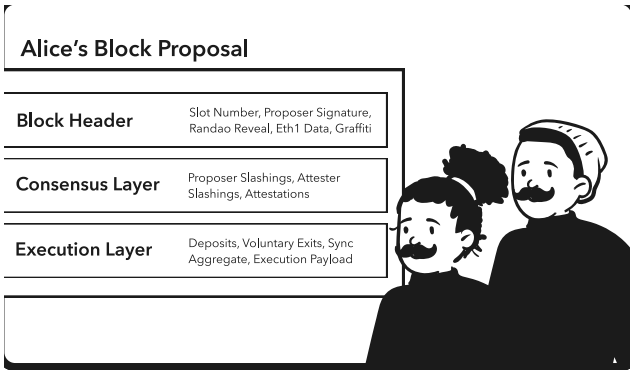

## Block Proposal Submission

Alice submits a new block proposal to the network.

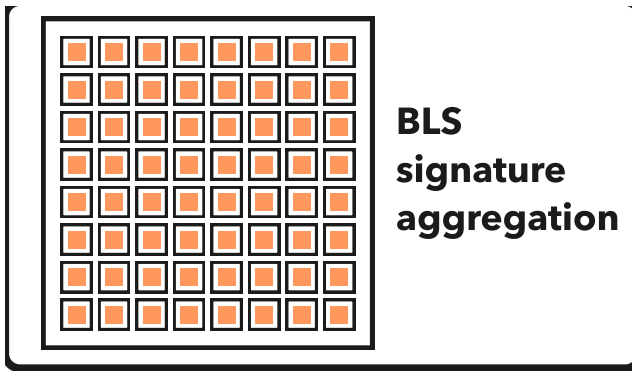

## Epoch Creation

From the pool of validators, 32 subcommittees are formed for this review cycle (epoch).

## Individual Attestations

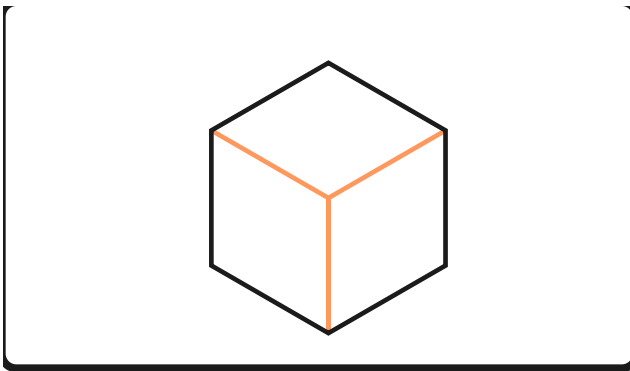

Validators in the committee review and vote (attest) on their decision.

**BLS  
signature  
aggregation**

## Feedback Aggregation

Validators combine the feedback to form a collective attestation.

## Block Finalized & Added

After all aggregated feedback is reviewed for 2/3 majority, block is finalized and added to the network.
